PROFILE

NEIGHBORHOOD ARTS PROFILE (NAP)

The Neighborhood Arts Profile (NAP), a research tool to identify opportunities to improve arts and cultural services, is a large citywide effort that tracks cultural and socioeconomic indicators across all Los Angeles neighborhoods.

The NAP allows users to access and interpret the most complete and up-to-date datasets on arts and culture in a given neighborhood.

The Youth Arts Profile is the first phase of the larger NAP and focuses on youth arts and wellbeing in Los Angeles neighborhoods.

The purpose of the Youth Arts Profile is two-fold:

1. increase accessibility and actionability of data on youth learning and social wellbeing
2. catalyze cross-sectoral efforts to advance arts equity for youth in neighborhoods across LA

Not only does the Youth Arts Profile and the larger NAP curate, visualize, and aggregate existing research findings, but will also establish data sharing partnerships with data initiatives in the region.
